PROFESSIONAL SUMMARY

High-performing **Store Performance Planner** and Computing Science undergraduate (Ranked 1st in Department). Expert in **Retail Demand Forecasting** and **Operational Optimization**, utilizing SQL, Python, and Power BI to transform 13M+ rows of data into actionable commercial insights. Proven track record in improving store-level efficiency by 25% and ensuring 100% data integrity in high-volume convenience environments.

TECHNICAL SKILLS

- **Data Visualization:** Tableau, Power BI, Seaborn, Matplotlib, Plotly, Excel Dashboards, **Grad-CAM & LIME (Explainable AI Heatmaps)**.
 - **Data Analysis:** Descriptive Statistics, Seasonality Analysis, Trend Forecasting, Regression Modeling, **Quantitative Model Evaluation (mAP, F1-Score, PR Curves)**.
 - **Databases & Tools:** SQL (MySQL, PostgreSQL), ETL Pipelines, Star Schema Design, **JSON-based Flat-file Architecture**, GitHub, Pandas.
 - **Business Intelligence & Compliance:** Stakeholder Reporting, Technical Documentation, Requirements Gathering, **GDPR & NIST AI Risk Management Framework**
-

PROFESSIONAL EXPERIENCE

Victoria Solutions | London Data Analysis & Performance Intern | Jul 2025 – Sep 2025

- **Performance Tracking:** Engineered real-time Power BI and Tableau dashboards to monitor store KPIs, providing visibility into operational performance.
- **Strategic Reporting:** Automated ETL pipelines using SQL to streamline multi-source data, reducing reporting latency for stakeholders.
- **Analytical Excellence:** Recognized with a Certificate of Excellence for delivering high-quality commercial insights.

M&S, Pantheon | London Customer Assistant (Convenience Channels) | Oct 2025 – Present

- **Market Trend Analysis:** Utilize digital analytical tools (Sparks) to track localized customer trends and adjust store-level targets.
- **Availability Management:** Monitor stock flow within a fast-paced convenience setting to ensure optimum product availability and sales growth.

G Asian Canteen | London Part-Time Operations Analyst | Jun 2024 – Aug 2024

- **Inventory Planning:** Developed a custom digital inventory solution, replacing manual tracking and increasing data accuracy by 20%.
- **Process Optimization:** Leveraged data-driven insights to redesign workflows, resulting in a 25% increase in operational throughput.

Pho Vietnamese Street Food | London Operations & Data Integrity Specialist | Jan 2024 – Jan 2026

- **Financial Accuracy:** Audited daily transactions for 50+ customers via POS systems, maintaining 100% data integrity for financial reporting.
 - **Inventory Control:** Managed high-frequency stock rotation and inventory levels to minimize waste and meet compliance standards.
-

KEY ANALYTICS PROJECTS

London Crime Strategic Analytics (Big Data Forecasting)

- **Insight:** Analyzed 13M+ records to identify seasonal surges and regional "hotspots" using SQL aggregations.
- **Impact:** Developed 12+ visualizations to assist in resource allocation, a methodology directly applicable to retail labor and stock planning.

VigilAI: Quantitative Performance & Threat Analytics

- **Data Management:** Processed and annotated a custom dataset of over **8,475 images** using Roboflow to train multi-class models for security environments.
 - **Statistical Evaluation:** Conducted rigorous quantitative analysis using **Normalized Confusion Matrices, Precision-Recall (PR) Curves, and F1-Confidence Curves.**
 - **Real-Time Insights:** Engineered a system that transforms raw video data into **actionable intelligence** with a focus on trend identification in threat detection.
 - **Privacy Compliance:** Designed data processing workflows to adhere to **GDPR and NIST AI Risk Management Frameworks**, ensuring ethical handling of biometric data
-

EDUCATION & CERTIFICATIONS

- **BSc Computing Science** | Coventry University (Ranked 1st in Dept.).
- **Data & Business Analysis Professional Certification** | Victoria Solutions.

- **Learning SQL Programming** | LinkedIn & NASBA.
